DESCRIPTION AND TECHNICAL CHARACTERISTICS

Description of the product offered /

- Ergonomic swivel executive chair with high backrest with or without fixed headrest.
- The high backrest has lumbar support and is height adjustable with an up & down system (60mm).
- Seat with 12mm beech plywood backing with moulded polyurethane foam with an average density of 60 Kg/m³, on which the fabric is placed.
- Inner backrest support made of high resistance polyamide. Backrest padding made of 60Kg/m³ density foam and 40mm. thick.
- Outer seat shell made of injection moulded polypropylene.
- It has a synchro mechanism consisting of:
 - Mechanism for synchronised adjustment of the movement of the backrest and seat, with an opening angle between seat and backrest, backwards of 128° and forwards of 3°.
 - Multi-position locking mechanism of the backrest with 5 locking positions, with non-return system.
 - The mechanism consists of two levers to operate the seat-back synchronisation and the seat height adjustment.
 - The mechanism housing is made of aluminium and the backrest and seat support is made of painted steel (anti-corrosion treatment).
 - Backrest lumbar tension adjustment mechanism, by means of an adjustable self-weighting system that regulates the tension of the backrest inclination force. (up to 135 kg).
- The seat incorporates a multi-position seat depth adjustment mechanism with a 7cm. seat depth and seat tilt adjustment (14°).
- Height-adjustable seat by means of an oil-pneumatic piston with shock-absorbing effect.
- Fixed arms in black polyamide, adjustable in height, 3D arms (adjustable in height 6cm (7 positions), rotation, depth 6cm and width) or 4D arms. Made of elliptical steel tube finished in black epoxy paint. Incorporates a semi-rigid polyurethane scratch-resistant black finish on the back.
- Five-spoke swivel base made of polyamide 6+30% fibreglass (Marking: >PA6+GF30<) with a diameter of 600mm. Optionally available in polished aluminium finish.
- The base incorporates five 50mm. diameter double self-orienting wheels (hard or soft) that allow excellent rolling on any type of surface. Optionally they can be self-braking or larger diameter (65mm.).
- Seat and back fully upholstered in the fabric and colour chosen by the owner from the JDM SILLERIA SL range. The backrest can be supplied fully upholstered.
- Chair Recyclable up to 85% and antistatic (provided the right fabric and castors are chosen).
