DESCRIPTION**AND TECHNICAL CHARACTERISTICS**

Description of the product offered /

- Fixed chair for communities with 4 legs with a 2mm metal tube structure. thick and 16mm in diameter. Arc welding with continuous wire and gas protection. • Multilayer painted structure in white, black, gray or textured blue epoxy polyester (average thickness 80 microns). Optionally it can be served in a shiny chrome finish. • It has non-slip rubber studs at the base of the legs to protect the floor avoiding scratches. • Anatomical seat and backrest made in a single monocarcasa piece, made of polypropylene reinforced with fiberglass of different colors. Average thickness of 6mm.
 - Optionally, the seat can be upholstered in any of the fabrics from the JDM SILLERÍA SL catalog • Possibility of adapting to the user's support by flexing, without the need for any type of mechanism. • The chair comes from 90% recycled material and is 95% recyclable. • Does not contain materials that are harmful to the environment. • Stackable chair up to a maximum of 10 units (it includes 4 plastic plugs for stacking) • It incorporates as an option some black plastic union pieces to form rows, clipping them to the legs of the chairs. It incorporates regulation to be able to customize the distances. • Optionally, a cart can be purchased to transport the stacked chairs. • The chair incorporates a set of arms as an extension of the structure and covered by a polypropylene piece with the same finishes as the seat and back. • Optionally, it can be purchased with a 4-spoke pyramidal base in white or black polypropylene.
- with levelers or wheels.
- It is also served with a fixed stool structure or swivel chair.
