

Counters

P Table and reception tops made of 30 and 25 mm bilaminate. thick respectively. 2 mm PVC straight edge.

Opcional: Sobres de recepción en cristal de seguridad mate de 12mm (6+6) de espesor anclado sobre base de bilaminado color grafito de 19mm de espesor.

P Counter frame made of 30 mm thick bilaminate. 2mm PVC straight edge. The interior of the frame is made up of three 19 mm thick bilaminate panels (1 mm PVC straight edge) separated from each other by 7 mm plastic separators.

P The frames have 20 mm height-adjustable levelers

P The counters incorporate a black cable gland brush to hide the wiring passage and the joint between the table top and the counter panels.

P The reception envelope is fixed to the frame of the counter (elevated 4 cm above the frame) using metal supports made of 4 mm sheet metal and finished in textured aluminum-color epoxy paint.

P Optionally, the reception envelope can be incorporated in a vertical position on the counter frame. This envelope is made of 6 mm (3+3) thick matte safety glass and is anchored to the frame by three metal supports finished in textured aluminum-color epoxy paint. There is the possibility of personalizing this glass with logos or information signs (check price).

P Terminal and double leg made of 2 mm folded sheet metal and finished in textured aluminum-color epoxy paint.

P For the measurements of 140, 160 and 180 cm, the counter incorporates a reinforcement that joins the legs made of 2 mm sheet metal and finished in aluminum-colored textured epoxy paint.

Nota: Los sobres de recepción en melamina no son combinables con los de cristal.
