DESCRIPTION

AND TECHNICAL CHARACTERISTICS

Description of the product offered /

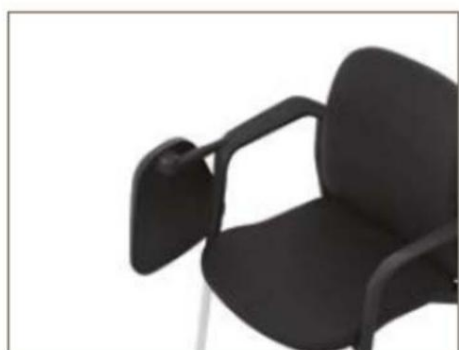

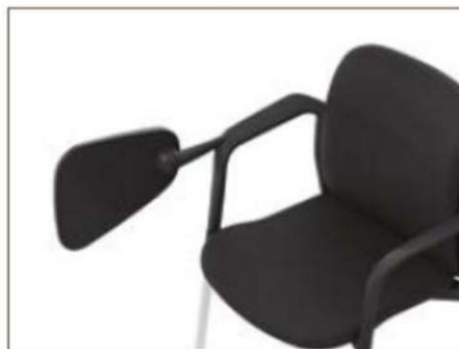

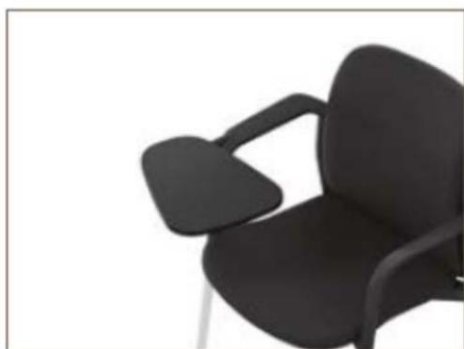

- Fixed chair for communities with 4 legs with a metal tube structure 1.8mm thick and 22mm wide. diameter
- Structure with 4 legs painted in multilayer epoxy polyester in aluminum color or textured black (average thickness 50 microns). Optionally it can be purchased in a shiny chrome finish.
- It also has a skid structure made of 2.5mm round metal tube. thick and 25mm. in diameter at the front and 2mm oval metallic tube. thick and 30x15mm. section at the rear. Finished in multi-layer epoxy polyester paint in aluminum color or textured black (average thickness 50 microns). Optionally it can be purchased in a shiny chrome finish.
- Both structures have non-slip rubber and polypropylene blocks at the base of the legs to protect the floor avoiding chafing.
- Seat upholstered in any JDM SEATING fabric on high density foam. against plastic of Polypropylene.
- Backrest upholstered in any JDM SEATING fabric on high-density foam and with visible back on a polypropylene perimeter frame with resistant and flexible fiberglass.
- Optionally, it can incorporate a backrest with tensoelastic technical mesh netting clipped to a polypropylene perimeter frame with resistant and flexible fiberglass.
- Stackable chair up to a maximum of 10 units.
- Optionally, a set of arms made of polypropylene can be incorporated with the same finishes as the plastic shells of the seat and backrest. Either of the two arms can be assembled with a high-resistance black plastic blade and anti-panic system. Stackable with shovel and cart available for transport.
- The chair comes from 90% recycled material and is 95% recyclable.
- Does not contain materials that are harmful to the environment.
