DESCRIPTION**AND TECHNICAL CHARACTERISTICS**

Description of the product offered /

- High-back ergonomic swivel chair of great comfort. Technical chair designed and manufactured for one use intensive.
- High backrest with tensoelastic technical mesh netting clipped to a polyamide perimeter frame with resistant and flexible fiberglass. Black mesh.
- The tension of the mesh allows a correct support of the user's back without deformations. • Ergonomic seat with 12mm beech plywood support. with molded polyurethane foam with an average density of 60 Kg/m³, on which the fabric is placed. Optionally it can be served with an extra pad for greater comfort. • Outer seat shell manufactured by polypropylene injection. • It has a synchro mechanism composed of:
 - Synchronized adjustment mechanism for the movement of the backrest and seat, with an angle of opening between the seat and the backrest, backwards of 128° and forwards of 3°. • Multiposition locking mechanism of the backrest with 5 locking positions, with anti-return system.
 - The mechanism consists of two levers to activate the synchronization of the backrest – seat and seat height adjustment.
 - The mechanism casing is made of aluminum and the support of the backrest and seat in painted steel (anticorrosive treatment)
 - Mechanism for regulating the lumbar tension of the backrest, by means of an adjustable knob that regulates the tension of the force of the inclination of the backrest (up to 135 Kg.).
 - It has an independent lumbar reinforcement, adjustable in depth.
- The seat incorporates a multi-position adjustment mechanism for the depth of the seat with a 7cm travel. and adjustment of the inclination of the seat (14°).
- Height adjustable seat by means of an oleo-pneumatic piston with a damping effect. • Fixed arms in black polyamide with 4D adjustable soft touch. Manufactured in elliptical steel tube finished in black epoxy paint. It incorporates a black anti-scratch semi-rigid polyurethane finish on its back.
- Five-spoke swivel base made of polyamide 6+30% fiberglass (Marking: >PA6+GF30<) with a diameter of 640mm. Optionally, it can be served in a polished aluminum finish (700mm in diameter) • The base incorporates five 50mm self-orienting double wheels. in diameter (hard or soft) that allow excellent rolling on any type of surface. Optionally they can be self-braking or with a larger diameter (65mm.).
- Seat upholstered in the fabric and color to be chosen by the owner from among all the ranges of JDM SILLERIA SL. • Almost 85% recyclable chair and antistatic (as long as the appropriate fabric and wheels are chosen)
